

# IMPLEMENTATION & SUPPORT SERVICES

# NEOGOV

Regional Government Services (RGS) has public sector professionals that work in all NEOGOV modules.

**Implement without undue stress**  
**Focus on your normal workload**  
**Get it done effectively and quickly**

### IMPLEMENT

Whether the implementation needs help getting started or is stalled, we will assist in going from development to go-live production.

### OPTIMIZE

We will refine your current NEOGOV environment.

### TRAIN

We provide interactive training sessions that are customized to meet each organization's needs.

## Testimonial

Without RGS's NeoGov expertise, our 3-month implementation would have likely taken us close to a year. RGS involvement also allowed for greater agency efficiency and helped bridge onboarding communication gaps. We highly recommend RGS!
