The pandemic has changed the way we work together. While some employees may have recently returned to work, others continue to work from home. These changes result in onsite, field, and remote work teams. This 90-minute Webinar helps supervisors and managers understand how to keep your team engaged and productive while working in the new world of mixed hybrid work.

This Webinar will specifically address:

- **Supervising a mix of hybrid and remote employees**
- **Establishing new performance measurements and realigning performance evaluations**
- **Gauging what an employee needs from you to move projects forward**
- **Scheduling work to support success for individuals, teams, and cultures**

RGS webinars are not typical “sit and listen” workshops. These are live, instructor-led courses, with multiple opportunities for interaction, asking questions, and getting feedback on individual situations. We build a variety of participation methods into our courses.
