

The RGS Economic Development Team provides a broad range of economic development services for cities, counties, universities and special districts throughout the West. The RGS Team has extensive experience in all aspects of economic development focused on setting the stage for business and revenue growth, enhancing community development priorities, strategic planning, scenario analysis, coordination and implementation.

The RGS Economic Development Team leverages modern data analytic tools to deliver meaningful insights for its client agency decision-makers. Our focus is advising clients on opportunities to initiate or enhance business and revenues, increase community vitality, strengthen local and regional economies, and set the stage for equitable and inclusive expansion. The RGS team is particularly attuned to the current challenges facing our communities including COVID and disaster recovery planning and implementation. As a full-service agency, RGS is also well positioned to provide comprehensive program implementation for select clients.
