Does your agency have enough resources to ensure that everything gets done right every payroll? Are you losing dedicated payroll professionals? If your agency does not have dedicated payroll staff and backup, Regional Government Services can help. Partnering with RGS for payroll services provides access to sound payroll guidance to ensure that complex compensation is correctly implemented, along with experienced payroll staff to perform transactional operations – all without incurring the on-going costs required for additional payroll positions.

RGS specializes in providing professional payroll support for small to mid-sized agencies throughout California, serving as consultants to the agency's payroll staff, or supplementing the agency's existing payroll resources. RGS has extensive experience in all aspects of public agency payroll services, including: payroll administration; submission of CALPERS retirement payroll contributions and various reporting; requirements, such as State Controller's yearly reports; EDD withholding and other withholdings; calendar year changes; updates of benefits and leave accruals, and other changes; expense and timecard reports; tracking employee stipends; and development and implementation of legally-compliant and effective payroll policies.

RGS has experts to provide all of your payroll services remotely as well as experts to come on site to help with setting up and addressing the myriad of payroll-related issues, from the correct legal way to calculate overtime, to setting up systems. RGS offers a new paradigm in payroll services. A service that is there for you each day of the year while you do not have to worry about a payroll staff member absence, leave, or separation from your agency. RGS takes care of it all.
